

# SHOWERING

Our showering collection blends elegant design with cutting-edge production techniques to bring you a truly luxurious range of shower heads, valves and wall arms. All of our pieces feature high-quality chrome plating, while the heavy-weight brass construction combines with stylish white ceramic detailing to offer a bathroom showering experience like no other.

- Easy to operate - the top control turns the water on and off and the bottom control adjusts the temperature.

- A simple shower solution - the twin shower will operate one shower accessory, choose a fixed head or a slide rail kit.

- Protection against accidental scalding.

- Easy to operate - the top control is the diverter to switch between your shower accessories and the bottom control adjusts the temperature

- A flexible shower solution - the twin with diverter shower allows you to have two shower accessories, and diverts between them according to your preference.

- Protection against accidental scalding.

- Easy to operate - the top control operates one shower accessory, the centre control adjusts the temperature and the bottom control operates the other shower accessory.

- A flexible shower solution - the triple shower will operate two shower accessories, you can choose to run them separately or run two at the same time.

- Protection against accidental scalding.

- Easy to operate - the top control diverts between two shower accessories, the centre control adjusts the temperature and the bottom control operates a shower accessory - enabling you to have three shower options.

- A flexible shower solution - the triple with diverter shower will operate three shower accessories, you can choose to run them separately or run two at the same time.

- Protection against accidental scalding.
